

As a flight attendant with over 23 years of flying experience I am urging you to keep cell phone usage limits as they are now. Allowing passengers to use them inflight will compromise my safety as well as the safety of all the passengers and crew. My primary job is to provide for the safety and comfort of the flying public and by allowing cell phone and pda usage you will make my job more difficult and will be giving would-be terrorist and hijackers one more tool to accomplish their destruction. The threat might be remote but can you live with yourself if you vote to allow their usage and even one person uses a cell phone or pda for deadly purposes. It just isn't worth it. Please think of me, my family and yours when you vote. Mary Beltrand-Nylen USAirways Flight Attendant
